

1

1. Locate Stud beneath wallboard.
2. Position plate at desired height and screw into place.
(screws should be in center of wall stud)

NOTE: Make sure the plate is level when mounting.

Extra plate here

2

1. Place bike on hook to determine lower plate height.
2. Position bottom plate in line with top plate and screw in place.

IMPORTANT WARNINGS:

DO NOT EXCEED MAXIMUM TOTAL WEIGHT LIMIT OF 40 LBS (18 Kgs)

Incorrect wall mounting could result in items falling and injury to persons.

Avoid mounting in a position where personal injury could result from walking into protruding rack.
